The Evaluation

Evaluation = Judgement

YOU MUST MAKE A JUDGEMENT: Description alone is not enough.

1500 words max

Evaluation

E1 Insightful evaluation of the research processes used, specific to the research question.

E2 Critical evaluation of decisions made in response to challenges and/or opportunities specific to the research processes used.

E3 Insightful evaluation of the quality of the Research Outcome.

Sections in the evaluation

Evaluation of the **processes** used:

Evaluation of **decisions** made:

Evaluation of **outcome**:

processes used, specific to the research question.

IMPORTANT

opportunities specific to the research processes used.

Research   Folio   Outcome   Evaluation

Evaluation of the **processes** used:

- How useful was each process for answering your question?
- Explain why, including examples.
- Consider pluses and minuses including reliability etc.

Evaluation of **decisions** made:

- How did you respond to any challenges or opportunities?
- Why was this a good/bad decision?
- What was outcome for project/process?

Evaluation of outcome:

- How well has your research answered the question? Explain why, considering both strengths and weaknesses.
- How might your research be useful to others? How could you or others extend on this research to make it more valuable?
- How useful is it for you personally ie what have you learned, not just info but skills etc?

Judgment Words

- Useful
- Well
- Merit/orious
- At fault
- Strength
- Limited
- Challenging
- Helpful
- Good quality
- Strong result
- Weak
- Valid

- Reliable
- Poorly
- Inappropriate
- Unsuitable
- Effective
- Successful
- Underwhelm
- Invalid
- Adequate
- Satisfactory
- Sufficient
- Suitable

SAJO model

S – Scenario: What was the challenge/opportunity

A – Action: What decision did I make?

J – Judgement: Was this a good decision?

O – Outcome: What were the consequences of this decision?
