

# Mind Mapping

# ENVIRONMENTAL CHANGE

**Learning Intention:** I can brainstorm ideas about the causes (and effects) of environmental changes.

**Instructions:** Fill in the tables below. Try and use a wide range of thinking – consider not just environment but society, politics, economy, living standards, healthcare, education, religion etc. Think of at least three things for each section.

HOW does the environment change negatively?	WHY does the environment change negatively?

HOW does the environment change positively?	WHY does the environment change positively?

## *Positive & Negative Effects of Environmental Change*

<b>What are the effects of changing the environment positively? Be specific!</b>	<b>What are the effects of changing the environment negatively? Be specific!</b>

<b>What passages can you think of from the Bible that give us some guidance about how we should treat the environment?</b>
